

Apex Learning Introduces Enhanced Curriculum, Adaptive Learning at ISTE 2016
Expanded Offerings Provide New Options to Support Student Success

SEATTLE, WA — June 27, 2016 — [Apex Learning](#), the leading digital curriculum provider known for making rigorous, standards-based content accessible to all students, announces new English and Algebra I courses with additional supports and Tutorials with adaptive features targeting student learning gaps at ISTE 2016.

“Research has already proven that students learn when using Apex Learning digital curriculum,” said Cheryl Vedoe, CEO, Apex Learning. “We are constantly investing to provide even more support to address diverse learning needs and help districts boost student performance and raise graduation rates.”

The new English and Algebra I courses, which are the courses that are most frequently requested by districts to complete graduation requirements, provide even more supports and scaffolds for struggling readers, ELL students and those who need support to master grade-level content.

Adaptive remediation, now featured in the innovative Tutorials, supports teachers in identifying and remediating individual learning gaps that prevent students from being successful in grade-level content.

At ISTE 2016, Vedoe will be sharing the latest Efficacy Studies featuring Apex Learning digital curriculum, expectations for the 2016-2017 school year and her projections for the future of K-12 digital curriculum. Apex Learning will be exhibiting the new enhanced curriculum, adaptive Tutorials and sharing client success stories in booth #3728. For more information, please visit www.apexlearning.com/ISTE. To schedule a meeting with Cheryl Vedoe at ISTE, please contact sarah@swpr-group.com.

About Apex Learning

Nearly two decades ago [Apex Learning](#) emerged as a leader in digital learning for secondary education, developing online Advanced Placement courses to provide students who would otherwise not have access the opportunity to take rigorous, college-level courses. Recognizing the challenges schools face in meeting the needs of every student — from those struggling to stay on track for graduation to those capable of accelerating their learning — the company continues to develop innovative, digital learning solutions to support teachers and provide every student with the opportunity to excel beyond his or her expectations.

Today Apex Learning offers a comprehensive catalog of rigorous, standards-based online courses that meet high school graduation requirements. Apex Learning Comprehensive Courses are used by schools nationwide for both initial credit and credit recovery to get students back on track for on-time graduation. The company's latest digital learning solution —Tutorials — ensure all students are prepared for high-stakes exams, provide remediation and enhance initial instruction.

Apex Learning, headquartered in Seattle, is accredited by AdvancED and its courses are approved for National Collegiate Athletic Association eligibility. For more information, visit www.apexlearning.com or call 1.800.453.1454.
